His Excellency Charlie Baker
Commonwealth of Massachusetts
State House, Room 360
Boston, Massachusetts 02133

Dear Governor Baker,

On behalf of the members of Construction Industries of Massachusetts (CIM), I commend you and your Administration for the leadership, outreach and information being provided to us on a daily, and often times hourly, basis as we collectively try to work our way through this uncharted territory.

The MassDOT – Highway Division and the MBTA continue to keep us informed, ask for input, provide guidance, and partner with CIM and our members as the vital construction work in the Commonwealth continues. As we have expressed to both agencies, our members are eager to continue working, and doing so in a continued safe and responsible way.

If there is anything we can do to help you and your Administration in the coming days and weeks, please do not hesitate to reach out. Again, thank you for your leadership and thank you to your teams at MassDOT – Highway and the MBTA. This partnership is an example of how it should work.

Sincerely,

John M. Pourbaix, Jr.
Executive Director
